Sample Room Flip

Notes:

- Post-ceremony photos will need to take place outside of the Pavilion
 - We suggest doing a first look before if wedding photos are needed inside the Pavilion
- A 10 person “team” provided by the bride and groom will be needed to accomplish this room flip quickly
- The Brookhill Team can help run the room flip, so the wedding party can focus on photos, etc.
- Set all tables exactly how you wish for them to be when guests are seated
- Move tables with at least **one person on each side**, so that decorations do not get messed up in the room flip process

Steps:

1. Wedding Party and Family exit Pavilion
2. Guests (other than “team”) exit Pavilion
3. Move Head Table to designated area
4. Move Family Tables to designated areas
5. Move designated tables to middle of Pavilion
6. Pull out side tables from walls
7. Pull out food tables from wall
8. Bring out cake table
9. Put chairs from the middle of the pavilion to around all guest, family, and head tables
10. Final walkthrough to make sure all decor and table settings look perfect!
